

Asbestos Clean-Up and Repair Schedule

Safety First Reminders

Look but don't touch

Wear a respirator to conduct a **visual inspection** only. **Do not touch** or disturb any suspected asbestos materials.

Suspect asbestos? Call a pro

Contact an accredited asbestos abatement professional if you find any potential asbestos.

List below the areas you marked **"Requires repairs"** and the **dates for the scheduled repairs**. Track the **date of completion** and the **date of follow-up air testing** for each project. Keep this document with your home ownership paperwork.

Location	Repairs required	Date of repair	Date completed	Date of air test
